

兔抗 ELOC 多克隆抗体

中文名称：兔抗 ELOC 多克隆抗体

英文名称： Anti-ELOC rabbit polyclonal antibody

别名： elongin C; SIII; TCEB1

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： ELOC

反应种属： Human, Mouse, Rat

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

This gene encodes the protein elongin C, which is a subunit of the transcription factor B (SIII) complex. The SII I complex is composed of elongins A/A2, B and C. It activates elongation by RNA polymerase II by suppressing transient pausing of the polymerase at many sites within transcription units. Elongin A functions as the transcriptionally active component of the SIII complex, whereas elongins B and C are regulatory subunits. Elongin A2 is specifically expressed in the testis, and capable of forming a stable complex with elongins B and C. The von Hippel-Lindau tumor suppressor protein binds to elongins

	B and C, and thereby inhibits transcription elongation. Multiple alternatively spliced transcript variants encoding two distinct isoforms have been identified.
Applications:	ELISA, IHC
Name of antibody:	ELOC
Immunogen:	Fusion protein of human ELOC
Full name:	elongin C
Synonyms:	SIII; TCEB1
SwissProt:	Q15369
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human breast cancer Human ovarian cancer
IHC Recommend dilution:	50-300
