

兔抗 ESPN 多克隆抗体

中文名称：兔抗 ESPN 多克隆抗体

英文名称：Anti-ESPN rabbit polyclonal antibody

别名：espin; DFNB36; LP2654

相关类别：一抗

抗原：ESPN

储存：冷冻（-20℃）

宿主：Rabbit

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes a multifunctional actin-bundling protein. It plays a major role in regulating the organization, dimensions, dynamics, and signaling capacities of the actin filament-rich, microvillus-type specializations that mediate sensory transduction in various mechanosensory and chemosensory cells. Mutations in this gene are associated with autosomal recessive neurosensory deafness, and autosomal dominant sensorineural deafness without vestibular involvement.
Applications:	ELISA, IHC
Name of antibody:	ESPN

Immunogen:	Synthetic peptide of human ESPN
Full name:	espin
Synonyms:	DFNB36; LP2654
SwissProt:	B1AK53
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human esophagus cancer and Human thyroid cancer
IHC Recommend dilution:	30-150
