Anti-STK36 antibody

Cat. No. ml162312

Package 25 μ l/100 μ l/200 μ l

Storage -20°C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Product overview

Description Anti-STK36 rabbit polyclonal antibody

Applications ELISA, IHC

Immunogen Synthetic peptide of human STK36

ReactivityHumanContent0.9 mg/mlHost speciesRabbit

Ig classImmunogen-specific rabbit IgGPurificationAntigen affinity purification

Target information

Symbol STK36

Full name serine/threonine kinase 36

Synonyms FU

Swissprot Q9NRP7

Target Background

This gene encodes a member of the serine/threonine kinase family of enzymes. This family member is similar to a Drosophila protein that plays a key role in the Hedgehog signaling pathway. This human protein is a positive regulator of the GLI zinc-finger transcription factors. Knockout studies of the homologous mouse gene suggest that defects in this human gene may lead to congenital hydrocephalus, possibly due to a functional defect in motile cilia.

Applications

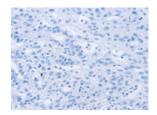

Immunohistochemistry

Predicted cell location: Cytoplasm and Cell membrane

Positive control: Human breast cancer

Recommended dilution: 10-50

The image on the left is immunohistochemistry of paraffin-embedded Human breast cancer tissue using ml162312(STK36 Antibody) at dilution 1/20, on the right is treated with synthetic peptide. (Original magnification: ×200)

ELISA

Recommended dilution: 1000-2000
