

Anti-CHFR antibody

Cat. No.	ml163535
Package	25 µl/100 µl/200 µl
Storage	-20°C, pH7.4 PBS, 0.05% NaN ₃ , 40% Glycerol

Product overview

Description	Anti-CHFR rabbit polyclonal antibody
Applications	ELISA, IHC
Immunogen	Synthetic peptide of human CHFR
Reactivity	Human
Content	0.9 mg/ml
Host species	Rabbit
Ig class	Immunogen-specific rabbit IgG
Purification	Antigen affinity purification

Target information

Symbol	CHFR
Full name	checkpoint with forkhead and ring finger domains, E3 ubiquitin protein ligase
Synonyms	RNF116; RNF196
Swissprot	Q96EP1

Target Background

This gene encodes an E3 ubiquitin-protein ligase required for the maintenance of the antephasis checkpoint that regulates cell cycle entry into mitosis and, therefore, may play a key role in cell cycle progression and tumorigenesis. The encoded protein has an N-terminal forkhead-associated domain, a central RING-finger domain, and a cysteine-rich C-terminal region. Alternatively spliced transcript variants that encode different protein isoforms have been described.

Applications

Immunohistochemistry

Predicted cell location: Nucleus

Positive control: Human lung cancer

Recommended dilution: 30-150

The image on the left is immunohistochemistry of paraffin-embedded Human lung cancer tissue using ml163535(CHFR Antibody) at dilution 1/35, on the right is treated with synthetic peptide. (Original magnification: ×200)

ELISA

Recommended dilution: 5000-10000
