Anti-VPREB3 antibody

Cat. No. ml124114

Package 25 μl/100 μl/200 μl

Storage -20°C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Product overview

Description Anti-VPREB3 rabbit polyclonal antibody

Applications ELISA, IHC

Immunogen Fusion protein of human VPREB3

ReactivityHumanContent0.4 mg/mlHost speciesRabbit

Ig classImmunogen-specific rabbit IgGPurificationAntigen affinity purification

Target information

Symbol VPREB3

Full namepre-B lymphocyte 3Synonyms8HS20; N27C7-2

Swissprot Q9UKI3

Target Background

The protein encoded by this gene is the human ortholog of the mouse VpreB3 (8HS20) protein, is thought to be involved in B-cell maturation, and may play a role in assembly of the pre-B cell receptor (pre-BCR). While the role of this protein in B-cell development has not yet been elucidated, studies with the chicken ortholog of this protein have found that when overexpressed, this protein localizes to the endoplasmic reticulum. The mouse ortholog of this protein has been shown to associate with membrane mu heavy chains early in the course of pre-B cell receptor biosynthesis. Expression of this gene has been observed in some lymphomas.

Applications

Immunohistochemistry

Predicted cell location: Cytoplasm Positive control: Human gastric cancer Recommended dilution: 20-100

The image on the left is immunohistochemistry of paraffin-embedded Human gastric cancer tissue using ml124114(VPREB3 Antibody) at dilution 1/30, on the right is treated with fusion protein. (Original magnification: ×200)

ELISA

Recommended dilution: 5000-10000
