

兔抗 CIT 多克隆抗体

中文名称：兔抗 CIT 多克隆抗体

英文名称： Anti-CIT rabbit polyclonal antibody

别名： CRIK; STK21

相关类别： 一抗

储存： 冷冻（-20℃） 避光

抗原： CIT

宿主： Rabbit

反应种属： Human

标记物： Unconjugate

克隆类型 Unconjugate

技术规格

Background:	This gene encodes a serine/threonine-protein kinase that functions in cell division. Together with the kinesin KIF14, this protein localizes to the central spindle and midbody, and functions to promote efficient cytokinesis. This protein is involved in central nervous system development. Polymorphisms in this gene are associated with bipolar disorder and risk for schizophrenia. Alternative splicing results in multiple transcript variants.
Applications:	IHC

Name of antibody:	CIT
Immunogen:	Synthesized peptide derived from internal of human CTRO.
Full name:	citron rho-interacting serine/threonine kinase
Synonyms :	CRIK; STK21
SwissProt:	O14578
IHC positive control:	Human brain tissue
IHC Recommend dilution:	50-100
