

ASB9 抗原(重组蛋白)

- 中文名称: ASB9 抗原 (重组蛋白)
- 英文名称: ASB9 Antigen (Recombinant Protein)
- 储存: 冷冻(-20℃)
- 相关类别: 抗原

概述

Full length fusion protein

技术规格

Full name:	ankyrin repeat and SOCS box containing 9
Swissprot:	Q96DX5
Gene Accession:	BC001244
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	This gene encodes a member of the ankyrin repeat and suppresso r of cytokine signaling (SOCS) box protein family. Members of this family can interact with the elongin B-C adapter complex via their SOCS box domain and further complex with the cullin and ring bo x proteins to form E3 ubiquitin ligase complexes. They may functi on to mediate the substrate-recognition of the E3 ubiquitin ligases . A transcribed pseudogene of this gene has been identified on ch romosome 15. Multiple transcript variants encoding different isofor ms have been found for this gene.
