

兔抗 ASL 多克隆抗体

中文名称：兔抗 ASL 多克隆抗体

英文名称：Anti-ASL rabbit polyclonal antibody

别名：ASAL

相关类别：一抗

抗原：ASL

储存：冷冻（-20℃）

宿主：Rabbit

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes a member of the lyase 1 family. The encoded protein forms a cytosolic homotetramer and primarily catalyzes the reversible hydrolytic cleavage of argininosuccinate into arginine and fumarate, an essential step in the liver in detoxifying ammonia via the urea cycle. Mutations in this gene result in the autosomal recessive disorder argininosuccinic aciduria, or argininosuccinic acid lyase deficiency. A nontranscribed pseudogene is also located on the long arm of chromosome 22. Alternatively spliced transcript variants encoding different isoforms have been described.

Applications:	ELISA, IHC
Name of antibody:	ASL
Immunogen:	Fusion protein of human ASL
Full name:	argininosuccinate lyase
Synonyms :	ASAL
SwissProt:	P04424
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human lung cancer and Human thyroid cancer
IHC Recommend dilution:	50-200
