

兔抗 CST6 多克隆抗体

中文名称：兔抗 CST6 多克隆抗体

英文名称： Anti-CST6 rabbit polyclonal antibody

相关类别： 一抗

储 存： 冷冻（-20℃）

抗 原： CST6

宿 主： Rabbit

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

The cystatin superfamily encompasses proteins that contain multiple cystatin-like sequences. Some of the members are active cysteine protease inhibitors, while others have lost or perhaps never acquired this inhibitory activity. There are three inhibitory families in the superfamily, including the type 1 cystatins (stefins), type 2 cystatins and the kininogens. The type 2 cystatin proteins are a class of cysteine proteinase inhibitors found in a variety of human fluids and secretions, where they appear to provide protective functions. This gene encodes a cystatin from the type 2 family, which is down-regulated in metastatic breast tumor cells as compared to primary tumor cells. Loss of expression is likely associated with

	the progression of a primary tumor to a metastatic phenotype.
Applications:	ELISA, IHC
Name of antibody:	CST6
Immunogen:	Fusion protein of human CST6
Full name:	cystatin E/M
SwissProt:	Q15828
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human ovarian cancer and human liver cancer
IHC Recommend dilution:	50-200
