

兔抗 CTNND2 多克隆抗体

中文名称：兔抗 CTNND2 多克隆抗体

英文名称： Anti-CTNND2 rabbit polyclonal antibody

别名： catenin delta 2; GT24; NPRAP

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： CTNND2

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

This gene encodes an adhesive junction associated protein of the armadillo/beta-catenin superfamily and is implicated in brain and eye development and cancer formation. The protein encoded by this gene promotes the disruption of E-cadherin based adherens junction to favor cell spreading upon stimulation by hepatocyte growth factor. This gene is overexpressed in prostate adenocarcinomas and is associated with decreased expression of tumor suppressor E-cadherin in this tissue. This gene resides in a region of the short arm of chromosome 5 that is deleted in Cri du Chat syndrome. Alternative splicing results in

	multiple transcript variants encoding different isoforms.
Applications:	ELISA, WB
Name of antibody:	CTNND2
Immunogen:	Synthetic peptide of human CTNND2
Full name:	catenin delta 2
Synonyms:	GT24; NPRAP
SwissProt:	Q9UQB3
ELISA Recommended dilution:	5000-10000
WB Predicted band size:	133 kDa
WB Positive control:	Mouse brain tissue and Human cerebrum tissue lysates
WB Recommended dilution:	200-1000
