

兔抗 CXXC1 多克隆抗体

中文名称：兔抗 CXXC1 多克隆抗体

英文名称：Anti-CXXC1 rabbit polyclonal antibody

别名：CXXC finger protein 1; CFP1; CGBP; SPP1; PCCX1; PHF18; hCGBP; ZCGPC1; HsT2645; 2410002I16Rik; 5830420C16Rik

相关类别：一抗

储存：冷冻 (-20℃)

宿主：Rabbit

抗原：CXXC1

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes a protein that functions as a transcriptional activator that binds specifically to non-methylated CpG motifs through its CXXC domain. The protein is a component of the SETD1 complex, regulates gene expression and is essential for vertebrate development.
Applications:	ELISA, IHC
Name of antibody:	CXXC1
Immunogen:	Fusion protein of human CXXC1
Full name:	CXXC finger protein 1
Synonyms:	CFP1; CGBP; SPP1; PCCX1; PHF18; hCGBP; ZCGPC1; HsT2

	645; 2410002I16Rik; 5830420C16Rik
SwissProt:	Q9P0U4
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human tonsil
IHC Recommend dilution:	100-200
