

TIA1 抗原(重组蛋白)

中文名称: TIA1 抗原(重组蛋白)

英文名称: TIA1 Antigen (Recombinant Protein)

别 名: WDM; TIA-1

储 存: 冷冻(-20℃)

相关类别: 抗原

概述

Full length fusion protein

技术规格

Full name:	TIA1 cytotoxic granule-associated RNA binding protein
Synonyms:	WDM; TIA-1
Swissprot:	P31483
Gene Accession:	BC015944
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	The product encoded by this gene is a member of a RNA-binding protein family and possesses nucleolytic activity against cytotoxic I ymphocyte (CTL) target cells. It has been suggested that this prote in may be involved in the induction of apoptosis as it preferentiall y recognizes poly(A) homopolymers and induces DNA fragmentation in CTL targets. The major granule-associated species is a 15-kDa protein that is thought to be derived from the carboxyl terminus

of the 40-kDa product by proteolytic processing. Alternative splicin
g resulting in different isoforms of this gene product has been de
scribed in the literature
