

## CADM3 抗原（重组蛋白）

中文名称： CADM3 抗原（重组蛋白）

英文名称： CADM3 Antigen (Recombinant Protein)

别 名： BlgR; NECL1; TSLL1; IGSF4B; Necl-1; synCAM3

储 存： 冷冻（-20℃）

相关类别： 抗原

概 述：

Fusion protein corresponding to C terminal 250 amino acids of human CADM3

技术规格：

<b>Full name:</b>	cell adhesion molecule 3
<b>Synonyms:</b>	BlgR; NECL1; TSLL1; IGSF4B; Necl-1; synCAM3
<b>Swissprot:</b>	Q8N126
<b>Gene Accession:</b>	BC033819
<b>Purity:</b>	>85%, as determined by Coomassie blue stained SDS-PAGE
<b>Expression system:</b>	Escherichia coli
<b>Tags:</b>	His tag C-Terminus, GST tag N-Terminus
<b>Background:</b>	Cell adhesion molecule 3 is a protein that in humans is encoded by the CADM3 gene. IGSF4B is a brain-specific protein related to the calcium-independent cell-cell adhesion molecules known as nectins. Involved in the cell-cell adhesion. Has both calcium-independent homophilic cell-cell adhesion activity and calcium-independent heterophilic cell-cell adhesion activity with IGSF4, PVRL1 and PVRL3. Interaction with EPB41L1 may regulate structure or function of cell-cell junctions.
