

兔抗 FASTK 多克隆抗体

中文名称: 兔抗 FASTK 多克隆抗体

英文名称: Anti-FASTK rabbit polyclonal antibody

别 名: FAST

抗 原: FASTK

储 存: 冷冻(-20℃)

宿 主: Rabbit

相关类别: 一抗

反应种属: Human, Mouse

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

| Background: | The protein encoded by this gene is a member of the serine /threonine protein kinase family. This kinase was shown to b e activated rapidly during Fas-mediated apoptosis in Jurkat c ells. In response to Fas receptor ligation, it phosphorylates TI A1, an apoptosis-promoting nuclear RNA-binding protein. Th e encoded protein is a strong inducer of lymphocyte apopto sis. Two transcript variants encoding different isoforms have been found for this gene. Other variants exist, but their full-l |

| | sis. Two transcript variants encoding different isoforms have been found for this gene. Other variants exist, but their full-l ength natures have not yet been determined. |
| Applications: | ELISA, IHC |
| Name of antibody: | FASTK |

| Immunogen: | Fusion protein of human FASTK |
|-------------------------|---------------------------------------|
| Full name: | fas-activated serine/threonine kinase |
| Synonyms: | FAST |
| SwissProt: | Q14296 |
| IHC positive control: | Human gastric cancer and human brain |
| IHC Recommend dilution: | 50-200 |
