

BIN1 抗原（重组蛋白）

中文名称：BIN1 抗原（重组蛋白）

英文名称：BIN1 Antigen (Recombinant Protein)

储存：冷冻（-20℃）

相关类别：抗原

概述

Fusion protein corresponding to C terminal 250 amino acids of human BIN1

技术规格

Full name:	bridging integrator 1
Synonyms:	AMPH2; AMPHL; SH3P9
Swissprot:	O00499
Gene Accession:	BC004101
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	This gene encodes several isoforms of a nucleocytoplasmic adaptor protein, one of which was initially identified as a MYC-interacting protein with features of a tumor suppressor. Isoforms that are expressed in the central nervous system may be involved in synaptic vesicle endocytosis and may interact with dynamin, synaptojanin, endophilin, and clathrin. Isoforms that are expressed in muscle and ubiquitously expressed isoforms localize to the cytoplasm and nucleus and activate a caspase-independent apoptotic process. Studies in mouse suggest that this gene plays an important role in cardiac muscle development. Alternate splicing of the gene results in ten t

ranscript variants encoding different isoforms. Aberrant splice variants expressed in tumor cell lines have also been described.
