

兔抗 HFE 多克隆抗体

中文名称：兔抗 HFE 多克隆抗体

英文名称：Anti-HFE rabbit polyclonal antibody

别名：HH; HFE1; HLA-H; MVCD7; TFQTL2

相关类别：一抗

储存：冷冻（-20℃）避光

宿主：Rabbit

抗原：HFE

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	The protein encoded by this gene is a membrane protein that is similar to MHC class I-type proteins and associates with beta2-microglobulin (beta2M). It is thought that this protein functions to regulate iron absorption by regulating the interaction of the transferrin receptor with transferrin. The iron storage disorder, hereditary haemochromatosis, is a recessive genetic disorder that results from defects in this gene. At least nine alternatively spliced variants have been described for this gene. Additional variants have been found but their full-length nature has not been determined.
Applications:	WB
Name of antibody:	HFE

Immunogen:	Fusion protein of human HFE
Full name:	hemochromatosis
Synonyms :	HH; HFE1; HLA-H; MVCD7; TFQTL2
SwissProt:	Q30201
WB Predicted band size:	40 kDa
WB Positive control:	Hela, A375 and Caco-2 cells
WB Recommended dilution:	500-2000
