

## 兔抗 HID1 多克隆抗体

中文名称：兔抗 HID1 多克隆抗体

英文名称：Anti-HID1 rabbit polyclonal antibody

别名：DMC1; HID-1; C17orf28

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：HID1

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

<b>Background:</b>	C17orf28 (chromosome 17 open reading frame 28) is a 788 amino acid multi-pass membrane protein that is expressed in heart, skeletal muscle, colon, spleen, kidney, liver, small intestine and lung. C17orf28 may be involved in the development of cancers in a broad range of tissues. Existing as three alternatively spliced isoforms, C17orf28 is encoded by a gene mapping to human chromosome 17, which makes up over 2.5% of the human genome with about 81 million bases encoding over 1,200 genes. Two key tumor suppressor genes are associated with chromosome 17, namely, p53 and BRCA1.
<b>Applications:</b>	ELISA, IHC
<b>Name of antibody:</b>	HID1

<b>Immunogen:</b>	Synthetic peptide of human HID1
<b>Full name:</b>	HID1 domain containing
<b>Synonyms :</b>	DMC1; HID-1; C17orf28
<b>SwissProt:</b>	Q8IV36
<b>ELISA Recommended dilution:</b>	2000-5000
<b>IHC positive control:</b>	Human liver cancer
<b>IHC Recommended dilution:</b>	25-100
