

兔抗 MLKL 多克隆抗体

- 中文名称：兔抗 MLKL 多克隆抗体
- 英文名称：Anti-MLKL rabbit polyclonal antibody
- 别名：mixed lineage kinase domain like pseudokinase; hMLKL
- 相关类别：一抗
- 储存：冷冻（-20℃）
- 宿主：Rabbit
- 抗原：MLKL
- 反应种属：Human
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:

This gene belongs to the protein kinase superfamily. The encoded protein contains a protein kinase-like domain; however, is thought to be inactive because it lacks several residues required for activity. This protein plays a critical role in tumor necrosis factor (TNF)-induced necroptosis, a programmed cell death process, via interaction with receptor-interacting protein 3 (RIP3), which is a key signaling molecule in necroptosis pathway. Inhibitor studies and knockdown of this gene inhibited TNF-induced necrosis. High levels of this protein and RIP3 are associated with inflammatory bowel disease in children. Alternatively spliced transc

	ript variants have been described for this gene.
Applications:	ELISA, IHC
Name of antibody:	MLKL
Immunogen:	Fusion protein of human MLKL
Full name:	mixed lineage kinase domain like pseudokinase
Synonyms:	hMLKL
SwissProt:	Q8NB16
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer and Human tonsil
IHC Recommend dilution:	50-300
