

兔抗 MPP1 多克隆抗体

中文名称：兔抗 MPP1 多克隆抗体

英文名称：Anti-MPP1 rabbit polyclonal antibody

别名：membrane palmitoylated protein 1; MRG1; PEMP; AAG12; EMP55; DXS552E

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：MPP1

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes the prototype of the membrane-associated guanylate kinase (MAGUK) family proteins. MAGUKs interact with the cytoskeleton and regulate cell proliferation, signaling pathways, and intercellular junctions. The encoded protein is an extensively palmitoylated membrane phosphoprotein containing a PDZ domain, a Src homology 3 (SH3) motif, and a guanylate kinase domain. This gene product interacts with various cytoskeletal proteins and cell junctional proteins in different tissue and cell types, and may be involved in the regulation of cell shape, hair cell development, neural patterning of the retina, and apico-basal

	polarity and tumor suppression pathways in non-erythroid cells. Multiple transcript variants encoding different isoforms have been found for this gene.
Applications:	ELISA, IHC
Name of antibody:	MPP1
Immunogen:	Fusion protein of human MPP1
Full name:	membrane palmitoylated protein 1
Synonyms:	MRG1; PEMP; AAG12; EMP55; DXS552E
SwissProt:	Q00013
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human tonsil and Human cervical cancer
IHC Recommend dilution:	50-300
