

兔抗 GBA 多克隆抗体

中文名称：兔抗 GBA 多克隆抗体

英文名称： Anti-GBA rabbit polyclonal antibody

别名： glucosylceramidase beta; GCB; GBA1; GLUC

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： GBA

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	This gene encodes a lysosomal membrane protein that cleaves the beta-glucosidic linkage of glycosylceramide, an intermediate in glycolipid metabolism. Mutations in this gene cause Gaucher disease, a lysosomal storage disease characterized by an accumulation of glucocerebrosides. A related pseudogene is approximately 12 kb downstream of this gene on chromosome 1. Alternative splicing results in multiple transcript variants.
Applications:	ELISA, WB
Name of antibody:	GBA
Immunogen:	Synthetic peptide of human GBA

Full name:	glucosylceramidase beta
Synonyms:	GCB; GBA1; GLUC
SwissProt:	P04062
ELISA Recommended dilution:	5000-10000
WB Predicted band size:	60 kDa
WB Positive control:	Mouse heart tissue, Mouse liver tissue, Mouse brain tissue lysates
WB Recommended dilution:	500-2000
