

兔抗 GCG(GLP1)多克隆抗体

- 中文名称：兔抗 GCG(GLP1)多克隆抗体
- 英文名称：Anti-GCG rabbit polyclonal antibody
- 别名：GLP1; GLP2; GRPP
- 相关类别：一抗
- 储存：冷冻（-20℃）
- 宿主：Rabbit
- 抗原：GCG(GLP1)
- 反应种属：Human, Mouse, Rat
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:

The protein encoded by this gene is actually a prepro protein that is cleaved into four distinct mature peptides. One of these, glucagon, is a pancreatic hormone that counteracts the glucose-lowering action of insulin by stimulating glycogenolysis and gluconeogenesis. Glucagon is a ligand for a specific G-protein linked receptor whose signalling pathway controls cell proliferation. Two of the other peptides are secreted from gut endocrine cells and promote nutrient absorption through distinct mechanisms. Finally, the fourth peptide is similar to glicentin, an active enteroglucagon.

Applications:	ELISA, IHC
Name of antibody:	GCG(GLP1)
Immunogen:	Synthetic peptide of human GCG(GLP1)
Full name:	glucagon
Synonyms:	GLP1; GLP2; GRPP
SwissProt:	P01275
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human colon cancer and human cervical cancer
IHC Recommend dilution:	25-100
