

兔抗 GDF9 多克隆抗体

中文名称：兔抗 GDF9 多克隆抗体

英文名称： Anti-GDF9 rabbit polyclonal antibody

别名： growth differentiation factor 9; POF14

抗原： GDF9

储存： 冷冻（-20℃）

宿主： Rabbit

相关类别： 一抗

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

This gene encodes a secreted ligand of the TGF-beta (transforming growth factor-beta) superfamily of proteins. Ligands of this family bind various TGF-beta receptors leading to recruitment and activation of SMAD family transcription factors that regulate gene expression. The encoded preprotein is proteolytically processed to generate each subunit of the disulfide-linked homodimer. This protein regulates ovarian function. Reduced expression of this gene may be associated with polycystic ovary syndrome and mutations in this gene may be more common in mothers of dizygotic twins.

Applications:	ELISA, IHC
Name of antibody:	GDF9
Immunogen:	Fusion protein of human GDF9
Full name:	growth differentiation factor 9
Synonyms:	POF14
SwissProt:	O60383
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer
IHC Recommend dilution:	50-100
