

兔抗 MTERF1 多克隆抗体

中文名称：兔抗 MTERF1 多克隆抗体

英文名称： Anti-MTERF1 rabbit polyclonal antibody

别名： MTERF

相关类别： 一抗

储存： 冷冻（-20℃） 避光

宿主： Rabbit

抗原： MTERF1

反应种属： Human

标记物： Unconjugate

克隆类型： Unconjugate

技术规格

Background:	This gene encodes a mitochondrial transcription termination factor. This protein participates in attenuating transcription from the mitochondrial genome; this attenuation allows higher levels of expression of 16S ribosomal RNA relative to the tRNA gene downstream. The product of this gene has three leucine zipper motifs bracketed by two basic domains that are all required for DNA binding. There is evidence that, for this protein, the zippers participate in intramolecular interactions that establish the three-dimensional structure required for DNA binding.
Applications:	WB, IHC

Name of antibody:	MTERF1
Immunogen:	Synthesized peptide derived from internal of human MTERF.
Full name:	mitochondrial transcription termination factor 1
Synonyms :	MTERF
SwissProt:	Q99551
IHC positive control:	Human brain tissue
IHC Recommend dilution:	50-100
WB Predicted band size:	46 kDa
WB Positive control:	Jurkat cells lysate
WB Recommended dilution:	500-3000
