

兔抗 MUC20 多克隆抗体

中文名称: 兔抗 MUC20 多克隆抗体

英文名称: Anti-MUC20 rabbit polyclonal antibody

别 名: MUC-20

抗 原: MUC20

储 存: 冷冻(-20℃)

宿 主: Rabbit

相关类别: 一抗

反应种属: Human

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:

This gene encodes a member of the mucin protein family . Mucins are high molecular weight glycoproteins secreted by many epithelial tissues to form an insoluble mucous b arrier. The shorter isoform expressed by this gene is locali zed to the plasma membrane, whereas the longer isoform might be secreted. The C terminus of this protein associa tes with the multifunctional docking site of the met proto -oncogene and suppresses activation of some downstrea m met signaling cascades. The protein features a tandem repeat domain that varies between 2 and 6 copies in mo st individuals. The allele represented in the human referen

	ce assembly contains 12 copies. Multiple transcript variant s encoding different isoforms have been found for this g ene.
Applications:	ELISA, IHC
Name of antibody:	MUC20
Immunogen:	Fusion protein of human MUC20
Full name:	mucin 20, cell surface associated
Synonyms :	MUC-20
SwissProt:	Q8N307
ELISA Recommended dilution:	1000-5000
IHC positive control:	Human brain and human lung cancer
IHC Recommend dilution:	25-100
