

兔抗 TRPC4AP 多克隆抗体

中文名称：兔抗 TRPC4AP 多克隆抗体

英文名称： Anti-TRPC4AP rabbit polyclonal antibody

别名： TRUSS; TRRP4AP; PPP1R158; C20orf188

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： TRPC4AP

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

TRPC4AP (transient receptor potential cation channel, subfamily C, member 4 associated protein), also known as TRUSS or TRRP4AP, is a 797 amino acid protein that is expressed in a variety of tissues, with highest expression in liver, heart, testis and brain. Thought to function as a scaffolding protein, TRPC4AP interacts with TNF-R1 and may both link TNF-R1 to the IKK signaling complex, and participate in the activation of NFκB p50, an event that occurs in response to TNF-R1 ligation. TRPC4AP exists as multiple alternatively spliced isoforms that are encoded by a gene which maps to human chromosome 20. Comprising approxi

	mately 2% of the human genome, chromosome 20 contains nearly 63 million bases that encode over 600 genes, some of which are associated with Creutzfeldt-Jakob disease, amyotrophic lateral sclerosis, spinal muscular atrophy, ring chromosome 20 epilepsy syndrome and Alagille syndrome.
Applications:	ELISA, IHC
Name of antibody:	TRPC4AP
Immunogen:	Fusion protein of human TRPC4AP
Full name:	transient receptor potential cation channel, subfamily C, member 4 associated protein
Synonyms :	TRUSS; TRRP4AP; PPP1R158; C20orf188
SwissProt:	Q8TEL6
ELISA Recommended dilution:	2000-10000
IHC positive control:	Human thyroid cancer
IHC Recommend dilution:	30-150
