

兔抗 TSLP 多克隆抗体

中文名称: 兔抗 TSLP 多克隆抗体

英文名称: Anti-TSLP rabbit polyclonal antibody

储 存: 冷冻(-20℃)

抗原: TSLP

宿 主: Rabbit

相关类别: 一抗

反应种属: Human

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:

This gene encodes a hemopoietic cytokine proposed to s ignal through a heterodimeric receptor complex compose d of the thymic stromal lymphopoietin receptor and the IL-7R alpha chain. It mainly impacts myeloid cells and in duces the release of T cell-attracting chemokines from m onocytes and enhances the maturation of CD11c(+) dend ritic cells. The protein promotes T helper type 2 (TH2) ce II responses that are associated with immunity in various inflammatory diseases, including asthma, allergic inflamm ation and chronic obstructive pulmonary disease. The protein is therefore considered a potential therapeutic target for the treatment of such diseases. Alternative splicing of this gene results in multiple transcript variants.

Applications:	ELISA, WB
Name of antibody:	TSLP
Immunogen:	Fusion protein of human TSLP
Full name:	Thymic stromal lymphopoietin
SwissProt:	Q969D9
ELISA Recommended dilution:	2000-5000
WB Predicted band size:	18 kDa
WB Positive control:	Jurkat cells
WB Recommended dilution:	500-2000
