

兔抗 NECTIN4 多克隆抗体

中文名称：兔抗 NECTIN4 多克隆抗体

英文名称： Anti-NECTIN4 rabbit polyclonal antibody

别名： nectin cell adhesion molecule 4; LNIR; PRR4; EDSS1

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： NECTIN4

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

This gene encodes a member of the nectin family. The encoded protein contains two immunoglobulin-like (Ig-like) C2-type domains and one Ig-like V-type domain. It is involved in cell adhesion through trans-homophilic and -heterophilic interactions. It is a single-pass type I membrane protein. The soluble form is produced by proteolytic cleavage at the cell surface by the metalloproteinase ADAM17/TACE. The secreted form is found in both breast tumor cell lines and breast tumor patients. Mutations in this gene are the cause of ectodermal dysplasia-syndactyly syndrome type 1, an autosomal recessive disorder. Alternatively spliced transcript variants have been found

	but the full-length nature of the variant has not been determined.[provided by RefSeq, Jan 2011]
Applications:	ELISA, IHC
Name of antibody:	NECTIN4
Immunogen:	Fusion protein of human NECTIN4
Full name:	nectin cell adhesion molecule 4
Synonyms:	LNIR; PRR4; EDSS1; PVRL4; nectin-4
SwissProt:	Q96NY8
IHC positive control:	Human colon cancer and Human liver cancer
IHC Recommend dilution:	50-200
