

兔抗 NFKBIE (Phospho-Ser22)多克隆抗体

中文名称：兔抗 NFKBIE (Phospho-Ser22)多克隆抗体

英文名称：Anti-NFKBIE (Phospho-Ser22) rabbit polyclonal antibody

别名：IKBE

相关类别：一抗

储存：冷冻（-20℃）避光

宿主：Rabbit

抗原：NFKBIE (Phospho-Ser22)

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	The protein encoded by this gene binds to components of NF-kappa-B, trapping the complex in the cytoplasm and preventing it from activating genes in the nucleus. Phosphorylation of the encoded protein targets it for destruction by the ubiquitin pathway, which activates NF-kappa-B by making it available to translocate to the nucleus.
Applications:	WB, IHC
Name of antibody:	NFKBIE (Phospho-Ser22)
Immunogen:	Synthetic peptide of human NFKBIE (Phospho-Ser22)
Full name:	nuclear factor of kappa light polypeptide gene enhancer in B-cells inhibitor, epsilon (Phospho-Ser22)

Synonyms :	IKBE
SwissProt:	O00221
IHC positive control:	Human breast carcinoma
IHC Recommend dilution:	50-100
WB Predicted band size:	40 kDa
WB Positive control:	293 cells untreated or treated with TNF
WB Recommended dilution:	500-1000
