

## 兔抗 RGS11 多克隆抗体

中文名称：兔抗 RGS11 多克隆抗体

英文名称： Anti-RGS11 rabbit polyclonal antibody

别名： RS11

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： RGS11

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

### 技术规格

#### Background:

The protein encoded by this gene belongs to the RGS (regulator of G protein signaling) family. Members of the RGS family act as GTPase-activating proteins on the alpha subunits of heterotrimeric, signal-transducing G proteins. This protein inhibits signal transduction by increasing the GTPase activity of G protein alpha subunits, thereby driving them into their inactive GDP-bound form. Alternative splicing occurs at this locus and four transcript variants encoding distinct isoforms have been identified.
