

兔抗 RITA1 多克隆抗体

中文名称：兔抗 RITA1 多克隆抗体

英文名称： Anti-RITA1 rabbit polyclonal antibody

别名： RBPJ interacting and tubulin associated 1; RITA; C12orf52

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： RITA1

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	Tubulin-binding protein that acts as a negative regulator of Notch signaling pathway. Shuttles between the cytoplasm and the nucleus and mediates the nuclear export of RBPJ/RBPSUH, thereby preventing the interaction between RBPJ/RBPSUH and NICD product of Notch proteins (Notch intracellular domain), leading to down-regulate Notch-mediated transcription. May play a role in neurogenesis.
Applications:	ELISA, IHC
Name of antibody:	RITA1

Immunogen:	Fusion protein of human RITA1
Full name:	RBPJ interacting and tubulin associated 1
Synonyms:	RITA; C12orf52
SwissProt:	Q96K30
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human esophagus cancer
IHC Recommend dilution:	50-200
