

兔抗 NRG2 多克隆抗体

中文名称: 兔抗 NRG2 多克隆抗体

英文名称: Anti-NRG2 rabbit polyclonal antibody

别名: DON1; HRG2; NTAK

抗原: NRG2

储存: 冷冻 (-20℃)

宿主: Rabbit

反应种属: Human, Mouse, Rat

标记物: Unconjugate

相关类别: 一抗

克隆类型: rabbit polyclonal

技术规格

Background:

This gene encodes a novel member of the neuregulin family of growth and differentiation factors. Through interaction with the ERBB family of receptors, this protein induces the growth and differentiation of epithelial, neuronal, glial, and other types of cells. The gene consists of 12 exons and the genomic structure is similar to that of neuregulin 1, another member of the neuregulin family of ligands. The products of these genes mediate distinct biological processes by acting at different sites in tissues and eliciting different biological responses in cells. This gene is located close to the region for demyelinating Charcot-Marie-Tooth disease locus, but is not responsible for this disease. Alternative transcript variants encoding distinct isoforms have

	been described.
Applications:	ELISA, IHC
Name of antibody:	NRG2
Immunogen:	Synthetic peptide of human NRG2
Full name:	neuregulin 2
Synonyms:	DON1; HRG2; NTAK
SwissProt:	O14511
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human esophagus cancer and human liver cancer
IHC Recommend dilution:	20-100
