

兔抗 ROR1 多克隆抗体

中文名称：兔抗 ROR1 多克隆抗体

英文名称：Anti-ROR1 rabbit polyclonal antibody

别名：NTRKR1; dJ537F10.1

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：ROR1

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes a receptor tyrosine kinase-like orphan receptor that modulates neurite growth in the central nervous system. The encoded protein is a glycosylated type I membrane protein that belongs to the ROR subfamily

	<p>of cell surface receptors. It is a pseudokinase that lacks catalytic activity and may interact with the non-canonical Wnt signalling pathway.</p> <p>This gene is highly expressed during early embryonic development but expressed at very low levels in adult tissues. Increased expression of this gene is associated with B-cell chronic lymphocytic leukaemia. Alternative splicing results in multiple transcript variants encoding different isoforms.</p>
Applications:	ELISA, IHC
Name of antibody:	ROR1
Immunogen:	Synthetic peptide of human ROR1
Full name:	receptor tyrosine kinase-like orphan receptor 1
Synonyms :	NTRKR1; dJ537F10.1
SwissProt:	Q01973
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human lung cancer and Human prostate cancer

IHC Recommend dilution:

25-100
