

兔抗 PA2G4 多克隆抗体

中文名称：兔抗 PA2G4 多克隆抗体

英文名称： Anti-PA2G4 rabbit polyclonal antibody

别名： proliferation-associated 2G4; EBP1; HG4-1; p38-2G4

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： PA2G4

反应种属： Human, Mouse, Rat

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

This gene encodes an RNA-binding protein that is involved in growth regulation. This protein is present in pre-ribosomal ribonucleoprotein complexes and may be involved in ribosome assembly and the regulation of intermediate and late steps of rRNA processing. This protein can interact with the cytoplasmic domain of the ErbB3 receptor and may contribute to transducing growth regulatory signals. This protein is also a transcriptional co-repressor of androgen receptor-regulated genes and other cell cycle regulatory genes through its interactions with histone deacetylases. This protein has been implicated in growth inhibition.

	ition and the induction of differentiation of human cancer cells. Six pseudogenes, located on chromosomes 3, 6, 9, 18, 20 and X, have been identified.
Applications:	ELISA, IHC
Name of antibody:	PA2G4
Immunogen:	Fusion protein of human PA2G4
Full name:	proliferation-associated 2G4
Synonyms:	EBP1; HG4-1; p38-2G4
SwissProt:	Q9UQ80
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human esophagus cancer and Human brain
IHC Recommend dilution:	50-200
