

## 兔抗 SELPLG 多克隆抗体

中文名称：兔抗 SELPLG 多克隆抗体

英文名称： Anti-SELPLG rabbit polyclonal antibody

别名： CLA; CD162; PSGL1; PSGL-1

储存： 冷冻 (-20℃)

抗原： SELPLG

宿主： Rabbit

相关类别： 一抗

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

### 技术规格

#### Background:

This gene encodes a glycoprotein that functions as a high affinity counter-receptor for the cell adhesion molecules P-, E- and L- selectin expressed on myeloid cells and stimulated T lymphocytes. As such, this protein plays a critical role in leukocyte trafficking during inflammation by tethering of leukocytes to activated platelets or endothelia expressing selectins. This protein requires two post-translational modifications, tyrosine sulfation and the addition of the sialyl Lewis x tetrasaccharide (sLex) to its O-linked glycans, for its high-affinity binding activity. Aberrant expression of this gene and p

	olymorphisms in this gene are associated with defects in the innate and adaptive immune response. Alternate splicing results in multiple transcript variants.
<b>Applications:</b>	ELISA, IHC
<b>Name of antibody:</b>	SELPLG
<b>Immunogen:</b>	Fusion protein of human SELPLG
<b>Full name:</b>	selectin P ligand
<b>Synonyms :</b>	CLA; CD162; PSGL1; PSGL-1
<b>SwissProt:</b>	Q14242
<b>ELISA Recommended dilution:</b>	2000-5000
<b>IHC positive control:</b>	Human liver cancer and Human thyroid cancer
<b>IHC Recommend dilution:</b>	50-200
