

兔抗 SERPINB1 多克隆抗体

中文名称：兔抗 SERPINB1 多克隆抗体

英文名称： Anti-SERPINB1 rabbit ployclonal antibody

别名： EI; LEI; PI2; MNEI; PI-2; HEL57; M/NEI; ELANH2

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： SERPINB1

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	The protein encoded by this gene is a member of the serpin family of proteinase inhibitors. Members of this family maintain homeostasis by neutralizing overexpressed proteinase activity through their function as suicide substrates. This protein inhibits the neutrophil-derived proteinases neutrophil elastase, cathepsin G, and proteinase-3 and thus protects tissues from damage at inflammatory sites. Alternative splicing results in multiple transcript variants.
Applications:	ELISA, IHC
Name of antibody:	SERPINB1
Immunogen:	Fusion protein of human SERPINB1

Full name:	serpin peptidase inhibitor, clade B (ovalbumin), member 1
Synonyms :	EI; LEI; PI2; MNEI; PI-2; HEL57; M/NEI; ELANH2
SwissProt:	P30740
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human thyoid cancer
IHC Recommend dilution:	25-100
