

兔抗 PICK1 多克隆抗体

中文名称：兔抗 PICK1 多克隆抗体

英文名称：Anti-PICK1 rabbit polyclonal antibody

别名：PICK; PRKCABP

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：PICK1

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

The protein encoded by this gene contains a PDZ domain, through which it interacts with protein kinase C, alpha (PRKCA). This protein may function as an adaptor that binds to and organizes the subcellular localization of a variety of membrane proteins. It has been shown to interact with multiple glutamate receptor subtypes, monoamine plasma membrane transporters, as well as non-voltage gated sodium channels, and may target PRKCA to these membrane proteins and thus regulate their distribution and function. This protein has also been found to act as an a

	anchoring protein that specifically targets PRKCA to mitochondria in a ligand-specific manner. Three transcript variants encoding the same protein have been found for this gene.
Applications:	ELISA, IHC
Name of antibody:	PICK1
Immunogen:	Synthetic peptide of human PICK1
Full name:	protein interacting with PRKCA 1
Synonyms :	PICK; PRKCABP
SwissProt:	Q9NRD5
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human thyroid cancer and Human liver cancer
IHC Recommend dilution:	25-100
