

兔抗 PLCB2 多克隆抗体

中文名称：兔抗 PLCB2 多克隆抗体

英文名称： Anti-PLCB2 rabbit polyclonal antibody

别名： phospholipase C beta 2; PLC-beta-2

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： PLCB2

反应种属： Human, Mouse, Rat

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	The protein encoded by this gene is a phosphodiesterase that catalyzes the hydrolysis of phosphatidylinositol 4,5-bisphosphate to the second messengers inositol 1,4,5-trisphosphate (IP3) and diacylglycerol. The encoded protein is activated by G proteins and has been shown to be involved in the type 2 taste receptor signal transduction pathway. In addition, nuclear factor kappa B can regulate the transcription of this gene, whose protein product is also an important regulator of platelet responses.
Applications:	ELISA, IHC

Name of antibody:	PLCB2
Immunogen:	Fusion protein of human PLCB2
Full name:	phospholipase C beta 2
Synonyms:	PLC-beta-2
SwissProt:	Q00722
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer
IHC Recommend dilution:	50-200
