

兔抗 KIN 多克隆抗体

- 中文名称：兔抗 KIN 多克隆抗体
- 英文名称：Anti-KIN rabbit polyclonal antibody
- 别名：Kin17 DNA and RNA binding protein; BTCD; Rts2; KIN17
- 相关类别：一抗
- 储存：冷冻（-20℃）
- 宿主：Rabbit
- 抗原：KIN
- 反应种属：Human, Mouse
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:

The protein encoded by this gene is a nuclear protein that forms intranuclear foci during proliferation and is redistributed in the nucleoplasm during the cell cycle. Short-wave ultraviolet light provokes the relocalization of the protein, suggesting its participation in the cellular response to DNA damage. Originally selected based on protein-binding with RecA antibodies, the mouse protein presents a limited similarity with a functional domain of the bacterial RecA protein, a characteristic shared by this human ortholog. Alternative splicing of this gene results in multiple t

	ranscript variants. [provided by RefSeq, Jan 2012]
Applications:	ELISA, IHC
Name of antibody:	KIN
Immunogen:	Fusion protein of human KIN
Full name:	Kin17 DNA and RNA binding protein
Synonyms:	BTCD; Rts2; KIN17
SwissProt:	O60870
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human esophagus cancer and Human tonsil
IHC Recommend dilution:	100-300
