

兔抗 KLK7 多克隆抗体

中文名称：兔抗 KLK7 多克隆抗体

英文名称：Anti-KLK7 rabbit polyclonal antibody

别名：hK7, SCCE, PRSS6

储存：冷冻（-20℃）

抗原：KLK7

宿主：Rabbit

反应种属：Human

相关类别：一抗

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes a member of the kallikrein subfamily of serine proteases. These enzymes have diverse physiological functions and many kallikrein genes are biomarkers for cancer. The encoded protein has chymotrypsin-like activity and plays a role in the proteolysis of intercellular cohesive structures that precedes desquamation, the shedding of the outermost layer of the epidermis. The encoded protein may play a role in cancer invasion and metastasis, and increased expression of this gene is associated with unfavorable prognosis and progression of several types of cancer. Polymorphisms in this gene may play a role in the develo

	<p>ment of atopic dermatitis. Alternatively spliced transcript variants encoding multiple isoforms have been observed for this gene, which is one of fifteen kallikrein subfamily members located in a gene cluster on chromosome 19.</p>
Applications:	ELISA, IHC
Name of antibody:	KLK7
Immunogen:	Fusion protein of human KLK7
Full name:	kallikrein-related peptidase 7
Synonyms :	hK7, SCCE, PRSS6
SwissProt:	P49862
ELISA Recommended dilution:	1000-5000
IHC positive control:	Human colon cancer and human ovarian cancer
IHC Recommend dilution:	25-100
