

兔抗 SLC26A5 多克隆抗体

中文名称：兔抗 SLC26A5 多克隆抗体

英文名称： Anti-SLC26A5 rabbit polyclonal antibody

别名： PRES; DFNB61

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： SLC26A5

反应种属： Human, Mouse, Rat

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	This gene encodes a member of the SLC26A/SulP transporter family. The protein functions as a molecular motor in motile outer hair cells (OHCs) of the cochlea, inducing changes in cell length that act to amplify sound levels. The transmembrane protein is an incomplete anion transporter, and does not allow anions to cross the cell membrane but instead undergoes a conformational change in response to changes in intracellular Cl ⁻ levels that results in a change in cell length.
Applications:	ELISA, IHC
Name of antibody:	SLC26A5

Immunogen:	Synthetic peptide of human SLC26A5
Full name:	solute carrier family 26 (anion exchanger), member 5
Synonyms :	PRES; DFNB61
SwissProt:	P58743
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human prostate cancer
IHC Recommend dilution:	25-100
