### 技术规格

<b>Background:</b>	This is a calcium-independent, phospholipid-dependent, serine- and threonine-specific enzyme. Essential for T-cell receptor (TCR)-mediated T-cell activation, but is dispensable during TCR-dependent thymocyte development. Links the TCR signaling complex to the activation of NF-kappa-B in mature T lymphocytes. Required for interleukin-2 (IL2) production.
<b>Applications:</b>	WB, IHC, IF
<b>Name of antibody:</b>	PRKCQ (Phospho-Ser676)
<b>Immunogen:</b>	Synthetic peptide of human PRKCQ (Phospho-Ser676)
<b>Full name:</b>	protein kinase C, theta (Phospho-Ser676)

<b>Synonyms :</b>	PRKCT; nPKC-theta
<b>SwissProt:</b>	Q04759
