

兔抗 SPAST 多克隆抗体

中文名称：兔抗 SPAST 多克隆抗体

英文名称：Anti-SPAST rabbit polyclonal antibody

别名：FSP2; SPG4; ADPSP

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：SPAST

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes a member of the AAA (ATPases associated with a variety of cellular activities) protein family. Members of this protein family share an ATPase domain and have roles in diverse cellular processes including membrane trafficking, intracellular motility, organelle biogenesis, protein folding, and proteolysis. The encoded ATPase may be involved in the assembly or function of nuclear protein complexes. Two transcript variants encoding distinct isoforms have been identified for this gene. Other alternative splice variants have been described but their full length se

	quences have not been determined. Mutations associated with this gene cause the most frequent form of autosomal dominant spastic paraplegia 4.
Applications:	ELISA, IHC
Name of antibody:	SPAST
Immunogen:	Synthetic peptide of human SPAST
Full name:	spastin
Synonyms :	FSP2; SPG4; ADPSP
SwissProt:	Q9UBP0
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human thyroid cancer and Human brain
IHC Recommend dilution:	25-100
