

兔抗 STAM 多克隆抗体

中文名称：兔抗 STAM 多克隆抗体

英文名称： Anti-STAM rabbit polyclonal antibody

别名： STAM1; STAM-1

相关类别： 一抗

抗原： STAM

储存： 冷冻（-20℃）

宿主： Rabbit

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	This gene encodes a member of the signal-transducing adaptor molecule family. These proteins mediate downstream signaling of cytokine receptors and also play a role in ER to Golgi trafficking by interacting with the coat protein II complex. The encoded protein also associates with hepatocyte growth factor-regulated substrate to form the endosomal sorting complex required for transport-0 (ESCRT-0), which sorts ubiquitinated membrane proteins to the ESCRT-1 complex for lysosomal degradation. Alternatively spliced transcript variants have been observed for this gene.
Applications:	ELISA, IHC

Name of antibody:	STAM
Immunogen:	Fusion protein of human STAM
Full name:	signal transducing adaptor molecule (SH3 domain and ITA M motif) 1
Synonyms:	STAM1; STAM-1
SwissProt:	Q92783
IHC positive control:	Human gastric cancer and human esophagus cancer
IHC Recommend dilution:	50-200
