

兔抗 LRRC15 多克隆抗体

中文名称：兔抗 LRRC15 多克隆抗体

英文名称：Anti-LRRC15 rabbit polyclonal antibody

别名：LIB

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：LRRC15

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

Leucine-rich repeats (LRRs) are 20-29 amino acid motifs that mediate protein-protein interactions. The primary function of these motifs is to provide a versatile structural framework for the formation of these protein-protein interactions. LRRs are present in a variety of proteins with diverse structure and function, including innate immunity and nervous system development. Several human diseases are associated with mutations in genes encoding LRR-containing proteins. The leucine-rich repeat-containing protein 15 (LRRC15, also designated LIB) is a 581 amino acid protein that contains 1

	5 LRR repeats and is involved in cell-cell and/or -extracellular matrix interactions. LRRC15 is frequently overexpressed in multiple tumor types, most notably breast carcinoma. It is also associated with the pathogenesis of Alzheimer's disease.
Applications:	ELISA, IHC
Name of antibody:	LRRC15
Immunogen:	Fusion protein of human LRRC15
Full name:	leucine rich repeat containing 15
Synonyms :	LIB
SwissProt:	Q8TF66
ELISA Recommended dilution:	2000-10000
IHC positive control:	Human prostate cancer and Human cervical cancer
IHC Recommend dilution:	100-300
