

## 兔抗 LTA 多克隆抗体

- 中文名称： 兔抗 LTA 多克隆抗体
- 英文名称： Anti-LTA rabbit polyclonal antibody
- 别名： LT; TNFB; TNFSF1
- 抗原： LTA
- 储存： 冷冻（-20℃）
- 宿主： Rabbit
- 相关类别： 一抗
- 反应种属： Human
- 标记物： Unconjugate
- 克隆类型： rabbit polyclonal

### 技术规格

**Background:**

The encoded protein, a member of the tumor necrosis factor family, is a cytokine produced by lymphocytes. The protein is highly inducible, secreted, and forms heterotrimers with lymphotoxin-beta which anchor lymphotoxin-alpha to the cell surface. This protein also mediates a large variety of inflammatory, immunostimulatory, and antiviral responses, is involved in the formation of secondary lymphoid organs during development and plays a role in apoptosis. Genetic variations in this gene are associated with susceptibility to leprosy type 4, myocardial infarction, non-Hodgkin's lymphoma, and psoriatic arthritis.

	itis. Alternatively spliced transcript variants have been observed for this gene.
<b>Applications:</b>	ELISA, IHC
<b>Name of antibody:</b>	LTA
<b>Immunogen:</b>	Fusion protein of human LTA
<b>Full name:</b>	lymphotoxin alpha (TNF superfamily, member 1)
<b>Synonyms :</b>	LT; TNFB; TNFSF1
<b>SwissProt:</b>	P01374
<b>ELISA Recommended dilution:</b>	2000-10000
<b>IHC positive control:</b>	Human colon cancer and Human lung cancer
<b>IHC Recommend dilution:</b>	50-200
