

小鼠抗 FSCN1 单克隆抗体

- 中文名称： 小鼠抗 FSCN1 单克隆抗体
- 英文名称： Anti-FSCN1 mouse monoclonal antibody
- 别名： fascin actin-bundling protein 1; HSN; SNL; p55; FAN1
- 相关类别： 一抗
- 储存： 冷冻（-20℃）
- 宿主： Mouse
- 抗原： FSCN1
- 反应种属： Human
- 标记物： Unconjugate
- 克隆类型： mouse monoclonal

技术规格

Background:

This gene encodes a member of the fascin family of actin-binding proteins. Fascin proteins organize F-actin into parallel bundles, and are required for the formation of actin-based cellular protrusions. The encoded protein plays a critical role in cell migration, motility, adhesion and cellular interactions. Expression of this gene is known to be regulated by several microRNAs, and overexpression of this gene may play a role in the metastasis of multiple types of cancer by increasing cell motility. Expression of this gene is also a marker for Reed-Sternberg cells in Hodgkin's lymphoma. A pseudogene of this gene is located

	ted on the long arm of chromosome 15.
Applications:	ELISA, WB
Name of antibody:	FSCN1
Immunogen:	Fusion protein of human FSCN1
Full name:	fascin actin-bundling protein 1
Synonyms:	HSN; SNL; p55; FAN1
SwissProt:	Q16658
WB Predicted band size:	55 kDa
WB Positive control:	HEPG2 whole cell lysate
WB Recommended dilution:	500-2000
