

兔抗 TCEAL1 多克隆抗体

中文名称：兔抗 TCEAL1 多克隆抗体

英文名称： Anti-TCEAL1 rabbit polyclonal antibody

别名： p21; SIIR; WEX9; pp21

相关类别： 一抗

储存： 冷冻（-20℃） 避光

宿主： Rabbit

抗原： TCEAL1

反应种属： Human Mouse Rat

标记物： Unconjugate

克隆类型： Unconjugate

技术规格

Background:

This gene encodes a member of the transcription elongation factor A (SII)-like (TCEAL) gene family. Members of this family may function as nuclear phosphoproteins that modulate transcription in a promoter context-dependent manner. The encoded protein is similar to transcription elongation factor A/transcription factor SII and contains a zinc finger-like motif as well as a sequence related to the transcription factor SII Pol II-binding region. It may exert its effects via protein-protein interactions with other transcripti

	onal regulators rather than via direct binding o f DNA. Multiple family members are located on the X chromosome. Alternative splicing results i n multiple transcript variants encoding a single isoform.
Applications:	WB
Name of antibody:	TCEAL1
Immunogen:	Synthesized peptide derived from internal of hu man TCEAL1.
Full name:	transcription elongation factor A (SII)-like 1
Synonyms :	p21; SIIR; WEX9; pp21
SwissProt:	Q15170
WB Predicted band size:	18 kDa
WB Positive control:	COLO cells lysate
WB Recommended dilution:	500-3000
