

## 小鼠抗 PGBD3 单克隆抗体

中文名称： 小鼠抗 PGBD3 单克隆抗体

英文名称： Anti-PGBD3 mouse monoclonal antibody

别名： piggyBac transposable element derived 3

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Mouse

抗原： PGBD3

反应种属： Human

标记物： Unconjugate

克隆类型： mouse monoclonal

### 技术规格

<b>Background:</b>	<p>This gene is a member of a small family of genes derived from piggyBac transposable elements. The encoded protein contains a zinc-ribbon domain characteristic of transposon-derived proteins and may function as a regulator of transcription. Alternative splicing occurs between a splice site from exon 5 of the adjacent upstream gene 'excision repair cross-complementation group 6' (ERCC6, Gen eID: 2074) and the 3' splice site upstream of the open reading frame (ORF) of this gene, which activates the alternative polyadenylation site downstream of the piggyback-derived-3 ORF. The resulting transcripts encode a fusion protein that shares sequence with the product of each individual gene. Pseudogenes for this gene are</p>

	defined on chromosomes 4, 5 and 12. [provided by RefSeq, Mar 2016]
<b>Applications:</b>	WB
<b>Name of antibody:</b>	PGBD3
<b>Immunogen:</b>	Fusion protein of human PGBD3
<b>Full name:</b>	piggyBac transposable element derived 3
<b>SwissProt:</b>	Q8N328
<b>WB Predicted band size:</b>	68 KD
<b>WB Positive control:</b>	HepG2, Hela, MDCK, MCF7 cell lysates
<b>WB Recommended dilution:</b>	500-2000
