

## CRP 抗原（重组蛋白）

中文名称： CRP 抗原（重组蛋白）

英文名称： CRP Antigen (Recombinant Protein)

别名： PTX1

相关类别： 抗原

储存： 冷冻（-20℃）

### 概述

Fusion protein corresponding to a region derived from 2-91 amino acids of human CRP

### 技术规格

<b>Full name:</b>	C-reactive protein, pentraxin-related
<b>Synonyms:</b>	PTX1
<b>Swissprot:</b>	P02741
<b>Gene Accession:</b>	BC020766
<b>Purity:</b>	>85%, as determined by Coomassie blue stained SDS-PAGE
<b>Expression system:</b>	Escherichia coli
<b>Tags:</b>	His tag C-Terminus, GST tag N-Terminus
<b>Background:</b>	The protein encoded by this gene belongs to the pentaxin family. It is involved in several host defense related functions based on its ability to recognize foreign pathogens and damaged cells of the host and to initiate their elimination by interacting with humoral and cellular effector systems in the blood. Consequently, the level of this protein in plasma increases greatly during acute phase response to tissue injury, infection, or other inflammatory stimuli.
