

兔抗 SNX6 多克隆抗体

- 中文名称：兔抗 SNX6 多克隆抗体
- 英文名称：Anti-SNX6 rabbit polyclonal antibody
- 别名：sorting nexin 6 TFAF2; MSTP010
- 相关类别：一抗
- 储存：冷冻（-20℃）
- 宿主：Rabbit
- 抗原：SNX6
- 反应种属：Human, Mouse
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes a member of the sorting nexin family. Members of this family contain a phosphoinositide binding domain, and are involved in intracellular trafficking. This protein associates with the long isoform of the leptin receptor, the transforming growth factor-beta family of receptor serine-threonine kinases, and with receptor tyrosine kinases for platelet-derived growth factor, insulin, and epidermal growth factor. This protein may form oligomeric complexes with family member proteins through interactions of both the PX domain and the coiled coil regions of the molecules. Translocation of

	this protein from the cytoplasm to the nucleus occurs after binding to proviral integration site 1 protein. This gene results in two transcripts encoding two distinct isoforms.
Applications:	ELISA, IHC
Name of antibody:	SNX6
Immunogen:	Synthetic peptide of human SNX6
Full name:	sorting nexin 6
Synonyms:	TFAF2; MSTP010
SwissProt:	Q9UNH7
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human esophagus cancer; Human liver cancer
IHC Recommend dilution:	50-300
